

New Edition from Edify

Te Whanake: Te Kākano

Third Edition

John C. Moorfield & Rachael Ka'ai-Mahuta

ISBN: 9780947494698

eBook: 9780947494803

Te Whanake is a comprehensive series of Māori-language textbooks for adults and teenagers, from beginner to advanced.

It aims to provide the resources to enable adult and teenage learners to develop the ability to communicate in Māori — to develop the receptive skills of listening and reading comprehension, and to become fluent and literate in te reo Māori.

Including maps, grammar notes, exercises, and working in conjunction with the Te Whanake podcasts, the series has

been carefully designed to help student progress in stages, beginning with the language required for common everyday situations and needs, and gradually extending the learner's language skills through to a higher level with each book.

This edition has been thoroughly updated with a fresh design and incorporating material previously placed in a separate Study Guide.

Te Kākano, the first book in the series, concentrates on the language needed for everyday situations, such as meeting people, having meals, going shopping, making arrangements, telephone conversations and going to a hui. Maps help locate the main tribal areas and the Māori names of important places, regions and mountains.
